

Dr. Yasir Salih Ahmed Ali

Water Resources and Hydraulics Engineer

Ministry of Water Resources and Electricity-the Hydraulics Research Center

PERSONAL INFORMATION

Date of Birth: 16-04-1975

Place of Birth: Wad Medani

Nationality: Sudanese

Occupation: Assistant Professor

Status: Married

Languages: Arabic (mother language) & English (spoken & written)

Address: P.O.Box 318-Wad Medani-Sudan

Telephone: 00249916780223

Fax: 00249511859700

e_mail yasir_hrs@yahoo.com, yasir_hrs@hotmail.com

I am a civil engineer with 15 years of experience in hydraulic engineering gained at the Hydraulic Research Centre (**HRC**) of the Ministry of Water Resources and Electricity (**MoWRE**) in Sudan and **UNESCO-IHE** institute for water in the Netherlands where I have conducted Msc and PhD study. Over the years, HRC has established a reputable record of research achievements in areas like river training; hydraulic engineering, sediment transport and management; irrigation engineering and management and water resources planning and management. HRC is the only research institute in the field of hydraulic and irrigation in Sudan. In HRC, I am working under the department of Hydraulic Engineering Research. As part of my duties, I have been involved in many projects as team leader conducting the field work, data analysis and reporting. Moreover, I participated in teaching and coordinating many courses at the national, regional and international level in the field of hydrology, GIS and irrigation.
